VEI Featured on NEW Bertram 700

Fort Lauderdale, FL – VEI is pleased to have its equipment on the new Bertram 700 Convertible, undoubtedly the largest and most advanced Bertram to come off their line. Hull no.1 will be on display at the Fort Lauderdale Boat Show for the first time and features VEI displays and a VEI switching system at the helm. The computers running the navigation and networking system are also supplied solely by VEI.

Mike Bader, Chief Operating Officer of VEI and Chief Executive Officer of *OceanView* a VEI company, “We are thrilled to have been asked to supply all the navigation equipment for Hull no. 1; obviously we take as much pride in manufacturing our equipment as Bertram and we appreciate the opportunity to partner with them and provide them with the finest electronics available in the marketplace.”

OceanView, a VEI company, has also provided Hull no. 1 with an APOLLO night vision camera; their new thermal and low light camera system which situated on the hard top will run through all three VEI screens at the helm station.
