

SSIR- *Your* Glass Bridge Controller

VEI-*the* leader in sophisticated marine electronics

Ft. Lauderdale, Florida – Vei, the leader in the design and manufacture of world class marine navigation systems and monitors, announced today the new face of integrated marine electronics technology, the SSIR.

VEI introduces the new industry standard for a completely integrated glass bridge control system

So simple, so central, so practical- Vei'S SSIR

Unlike any other vessel solution available in the market place today, the SSIR provides a central control that can select any system for any monitor for any location from anywhere on the boat! Simply plug in the SSIR and immediately put any system on any display with the easy push of a button. Work navigation, cameras, sounders, GPS, internet, t.v., radio and video!

There is nothing like the **SSIR** available anywhere else...

Designed for discriminating boat owners unwilling to settle for anything less than the best electronics, the SSIR is a one stop solution for integrating every electronic system on the boat. Combined with Vei monitors the SSIR gives you an even greater level of control; power on the whole bridge, set up for night running, dockside security, even foul-weather conditions with the single touch of a button!

Configurations: 2 forms - SSIR 2004 (box with water proof controller), SSIR 2004 LCD (box with touch screen controller)

Specifications:

Power: 110/220 VAC 50/60Hz or 9-36 VDC

Size: Standard 2U rack mount

Color: Durable black powder coat finish

Controls Inputs: Push button or touch screen

Serial interfaces: Multiple serial inputs and outputs, factory configurable to interface with a wide variety of video switches and KVM'S as well as inputs from many AV controllers

Warranty: Limited one year warranty

Options: SSIR LCD TOUCH SCREEN
Color touch screen
Waterproof panel
Additional touch screens
Waterproof buttons

AMERICAN MADE - Designed, built and supported in the U.S.A.

ABOUT VEI:

For 20 years VEI's Mission has been to provide computers, displays and navigation solutions for the marine industry and its clients. Serving their customers with integrity, always anticipating their ever changing needs without ever compromising the quality of their products. With offices and manufacturing plant ideally located in Ft. Lauderdale, Florida, VEI remains the leader in marine electronics.

If they haven't invented it yet – they will!
